

**For Immediate Release**

**“WONDERFUL DISCOVERIES IN PARADISE”**

Travelling has changed in this “new normal.” Everyday there are new updates on the many requirements that the COVID-19 pandemic has brought to travel and tourism. Before one can travel, protocols of the destination must be checked, extra personal protective equipment should be packed, and needed health-related paperwork (aside of course from visas, airline tickets and itineraries) should be ready. Preparations may seem a bit more tedious, but in spite of the changes, many people still desire to travel.

In fact, according to a survey made by the World Travel and Tourism Council (WWTC), around 70% of the 3000 respondents originally planned to travel in 2021. Many are optimistic about the new shifts in travelling, be it local travel, sustainable tourism, exploring less crowded destinations and discovering hidden gems. Fortunately for Club Paradise Palawan, this private Green Estate with the recent “Safe Travels” seal from the Department of Tourism and the World Travel & Tourism Council, provides authentic and meaningful experiences to the traveler throughout the journey – something that they look for nowadays in a destination.

Let’s take a look at some of the wonderful discoveries this private island paradise has to offer.

The journey to Club Paradise Palawan begins with a boat ride across the Pangawaran River. This river is lined with lush mangroves on both sides which provide a rich habitat for fresh water fish and mud crabs. During the early mornings, guests are invited to kayak along the river to experience the cool fog enveloping the mangrove branches. At dusk, they can marvel at the fireflies lighting up the mangroves like twinkling Christmas lights.

As guests exit the river to the open sea, they are usually met by flying fish darting across the waters. If it’s their lucky day, they might even catch a glimpse of the shy but friendly sea cow, locally known as “Dugong”. These friendly creatures have returned to the surrounding waters of the island because of the abundance of sea grass. Locals have also caught sight of whale sharks and the migration of dolphins which is definitely a sight to behold!

As the Club Paradise Palawan boat approaches the shoreline of Dimakya Island, it glides through the waters of the nearby House Reef, approximately 10 meters from the shore. The House Reef is a protected area because it is home to diverse marine life such as Blacktip Reef Sharks, Hawksbill Sea Turtles, Jackfish, Stingrays and Cuttlefish, just to name a few. Fishing in the area is strictly prohibited by the resort as well as use of motorized water sports equipment like jet skis as these may cause damage to the reef.

Dimakya Island is home to Club Paradise Palawan. Its beachfront is a turtle sanctuary with over 300 hatchlings released every year. The resort team keeps a close eye on Mama turtle every time she visits to lay her eggs. They make sure the eggs are protected from monitor lizards roaming around the island. This island is also home to over 100 species of trees and flowering plants. No wonder various birds like Night Herons and Owls, and even the friendly fruit bats make it their home. Fruit bats? The scary ones? Not at all. These bats are harmless and safe. In fact, every afternoon, as guests sip on their cocktails during happy hour at the beachfront, these bats put up a show as the entire colony fly out across the sunset to the neighboring island to feed. The resort calls this “The Flight of the Bats”.

The relaxing suites and villas at Club Paradise Palawan are built around the natural form of the island. They were strategically designed to offer breathtaking views of the sunrise, sunset, ocean and the garden. The resort’s newest room category is the Oceanview Suites offering refreshing views of the ocean and the nearby islands.

For the resort’s culinary offering, guests can enjoy hearty meals at the Firefish Restaurant. Here, guests can feast on local and international dishes using fresh ingredients from their nearby organic farm called Taranuman.

Aside from enjoying the wide beachfront with powdery white sand and watching the daily “Flight of the Bats”, what else can guests do at Club Paradise Palawan? At daybreak or sunset, they can take a quick hike to Eagle’s Point, the highest point of the island. Here, a marvelous 360-degree view of the island is a feast for the eyes. For diving enthusiasts, the onsite dive center, Club Paradise Divers, can take guests on a colorful journey under the sea.

Kids have their daily fun and exciting activities with “Discovery Scout” program. Adults on the other hand, can enjoy their “me time” at the Glow Spa. With all these exciting things to do in the island, guests like to extend their stay in paradise. Now, they can have a week-long or a month-long vacation in paradise with exclusive perks and privileges with Club Paradise Palawan’s [“Extended Stay for Work and Play”](#) and its “30 Days in Paradise” room offers.

Soon to be married couples looking into a destination wedding will find this island paradise ideal. Imagine saying “I do” by the beachfront, with the glistening ocean waves and sunset hues as their backdrop.

Wonderful and memorable discoveries indeed abound at Club Paradise Palawan. Here, the beauty of paradise is preserved by a team dedicated to nurture nature. They also make sure that guests always have something wonderful to discover at every visit. “We continue to enhance guest experiences in spite of challenges brought by the pandemic. Resilience is key, and we make it a point to put the guest’s experience first every time we innovate new products and services,” says Mr. Joegil Magtanggol Escobar, the resort’s Hotel Manager.
